

CORRIGENDUM / RECTIFICATIF

Corrigendum — Ontogeny of body size and shape of Antarctic and subantarctic fur seals**Sebastián P. Luque, Edward H. Miller, John P.Y. Arnould, Magaly Chambellant, and Christophe Guinet**

Ref.: Can. J. Zool. **85**: 1275–1285.

In the first sentence of the last paragraph on p. 1280, “Sparrow and Heywood (1996)” should be replaced by “Kerley (1985)”, so the sentence should read as follows:

Neonates of both species from our study were about a kilogram heavier than those weighed by Kerley (1985), although the difference cannot readily be attributed to any ecological factor because of the small sample size in the latter study.

Received 8 April 2008. Accepted 8 April 2008. Published on the NRC Research Press Web site at cjz.nrc.ca on 22 April 2008.
